FRIDAY, JULY 17, 1896.

Trip to the Rock. Eagle Rock seems to be the objecti ly man with a guitar and a nose red point of numerous excursionists from mough to shame a bon-fire. They at this town. The trolley is continually making places of interest accessible and since its opening up to the rock, many followed a scene that beggars descrippeople have enjoyed the view there-from tion. Gawky youths with trousers not who perhaps never would have visited n speaking terms with the top of their it otherwise, content to know that shoes, and buxom country girls, flew was at the back door so to speak, but around the room with great celerity never making any special effort to see it over in one corner a man who can't The reporter and a couple of friends lance but who can "hoe it down" is made the pilgrimage last week. There utting pigeon wings to the evident de was a grand scrimmage for seats as the ight of a circle of admirers, who beat open car for the rock appeared, whend me with their hands. The fiddler has by this time taken off his vest and i

tube to come.

A DREAM DREAMED OVER.

The flowers, and the palms, and the light In smooth, waxed flows were reflected

The music was throlding and pulsing;

That glorious gala hight.
With the fragrance of roses about her.

She smiled and flushed and denied it,

But by her heart's deep contentment

And they danced to the thrilling music-Oh, life was rapture then!-

When she was the prettiest girl in town,

But at last night's ball she lived again

And she heard him may as they passed her,

redients In the Explosive Plays.

She knew that he thought it true,

And he was the first of men!

They parted with a guished sorrow Time cleared the Gouded sky,

The girl in a pure white gown,

"You're the prettiest girl in town!

In her damity, pure white gown,

She was, as he whispered to her, "The prettiest girl in town."

resulted in a car-lead of complacent looking individuals and three or four left-overs looking wistfully from seat to seat. Suddenly the conductor exclaimed encouragingly 'the car isn't half full, and making our way to the rear wa were fortunate enough to secure what we afterward termed the "observation seat," and ascending the zig-zags of the route the advantage of an unobstructed view of the heights was not to be de-

Some one alluded quite accidentally to the ascent of Mount Washington, which comparison was too much for a Vermont boy who was riding with the the car step, and we heard such dissert ations on North Conway and crosscountry trips from Portland as to decidedly blunt the edge of the hazardous ascent we were about to accomplish.

Viewed from below, the face of this old fortress which has suffered the rable | etc of picnicers for so many years, is picturesque indeed, its excrescences softened greatly by the tender foliage of young trees and vines which find foothold among the rocks.

Above, should one wish to pursue the proper study of man-kind, he would find ample provision laid out in the crowd of pleasure seekers gathered about the tables discussing luncheon and beer. and marvel that some ever reached the foot of the stairs safely after such deep potations. Peanuts and pop-corn rank among the mild refreshments as shells and glazed paper testify. Here the wheelman and wheelwoman assert their supremacy and come whizzing along in the charmed days gone by.

His son and her daughter were dancing, the edge road with such a peremptory clearing of the track as to send wayfarers scurrying like frightened chick-

Whatever may have appeared to disadvantage on the rock, the outlook was all that had been anticipated and more. distant points were easily discernable and the neighboring villages were plainly visible cradled among the trees. The tell-tale spire of the Catholic Church was the first to betray the whereabouts of Bloomfield and from that the First Presbyterian, Berkeley School and one or two well known groups of dwellings could be recognized. All things beyond the shadow of the rock were bathed in the mellow light of sunset. the distant reaches of land and water natural product found bedded in the taking on the indescribable tint which painters like to copy.

The shadows were considerably lengthened before we descended within ear shot of the gong of the tabley and prepared to go home. The descent was them almost to a burning heat in an so rapid that all felt keen regret when airtight vessel, thus driving off everythe motorman ground down the brakes thing in them but carbon. at the corner and we proceeded to take a Bloomfield car fully determined that still the only ingredients of the guntrolley rides were the thing this season.

Montclair is still keeping at it and the applications keep going in just as fast as though there was another "special" prize up. We want at least fifty each mouth until the riding season is over, so if you have not joined yet secure an application blank at this office.

Bicycle meets are proving so successful that several new tracks are being hald out to be ready for the fall meetings. Work has been commenced on a ope-third of a mile track at the Scheutzen Park, Newark, which the Atalanta Wheelmen will use for a fall meet. The Vim Club of Newark will give one at the Waverly track, and the managers of the New Jersey State Fair will give bicycle races as one of their attractions. The Red Bank Wheelmen expect to have a new track there, as they are now negotiating for its construction. mechanical skill constructed better and

The list published July 10th of members oining the L. A. W. from this State has forty-two names from Montclair. This is the largest number sent in from any one grain to burn and to the distance it place during the special prize contest, and it is thought that this is the largest number ever sent in from one place in one week.

The action of the Hudson County officials peter is chemically called niter and is a n debarring heavy trucks from using the new boulevard has resulted in a renewal of chiefly in India and China. Sulphur, the distribution of tacks and glass on that too, is found in a fatural state in many thoroughfare. Wm. Heller, the director of volcanic countries like Sicily, while, the board, has issued instructions to the as is well known, charcoal is made from police to keep a strict watch, and informs wood or woody substances by heating Chief Consul Gentle that the board will do all in its power to arrest and punish any one engaged in this work Saltpeter, sulpbur and charcoal are
